SYNOPSIS
Symphony Ltd. Online

Introduction:

Symphony Ltd. offers IT and software certification courses. They use traditional ads to attract students and conduct entrance exams to assess and place them in courses. They aim to develop an online portal to expand their reach and streamline processes.

Existing Scenario:

- Advertisements through traditional media.
- Half-yearly training sessions.
- Entrance exams determine course placement.
- Counseling session for fee details and class allocation.
- Library access with identity card.

Proposed Solution:

- Development of an online portal with admin functionality.
- Admin can manage course details, entrance exam information, results, institution information, and FAQs.
- Non-financial functionalities include course details, entrance exam information, results viewing, FAQs, and contact details.
- Financial functionalities involve course fees and entrance exam fees determined by the admin.

Functional Requirements:

1. **Admin Functionality**:
   - Course Management: Add, update, or delete course details.
   - Entrance Exam Information: Schedule, fees, and other details.
   - Results Management: Enter student details, results, class allocation, and fees information.
   - About Us: Admin can enter or update information about the institution.
   - FAQ Management: Add, update, or delete FAQs on various topics.
   - Contact Information: Admin manages center details, addresses, and telephone numbers.

SYNOPSIS

2. **Normal Site Functionality**:
   - Home: Overview of the institute, courses, and new course details.
   - About Us: Detailed information about Symphony Ltd.
   - Course Details: Display a list of courses and topics covered.
   - Entrance Examination: View upcoming exams, last exam results, and pay fees.
   - FAQs: Frequently asked questions about the institute.
   - Contact Us: List of centers with addresses and telephone numbers.
3. **Database Management**:
   - Store course details, student information, exam results, center details, and FAQs.

Conclusion:

The Symphony Ltd. Online Certification Portal modernizes institute operations, making information easily accessible to students. Admin functionalities empower the institute to manage crucial information, ensuring an efficient experience for administrators and students.
